

ONLINE RESOURCES

The following list of web sites is offered as a sample of the resources available for Christians who seek more information on a variety of issues that may affect them or their families. It is the desire of the EFCC Biblical Citizenship Committee to offer resources that are based on a Biblical worldview, though some are secular or government web sites. You may wish to subscribe to periodic email publications from one or more of these organizations.

Because these sites are not created by EFCC they may not always reflect the Christian values that are foundational for our church and, thus, are provided for informational purposes only.
